

KISD policy regarding time requirements for TAKS testing.

All TAKS tests are untimed. Each student must be allowed to have as much time as necessary to respond to every test item. Districts are not required to test beyond the regular school hours.

Kilgore ISD guideline for state testing – All campuses will allow additional time beyond the normal school ending time for students to complete their TAKS tests. Campuses will attempt to contact parents in the event their student is testing beyond the end of the normal school day to allow parents to arrange alternate transportation.
